

DemiNo® - Impact Whirl Mill

Worldwide exclusive, multi-patented processing technology. Available only at NOLL's! It unites pin mill and whirlwind principles and helps save an entire processing step: direct grinding, no extra classifying needed. The pioneering solution for almost any product application, from food to minerals - a universal genius and fantastic energy saver.

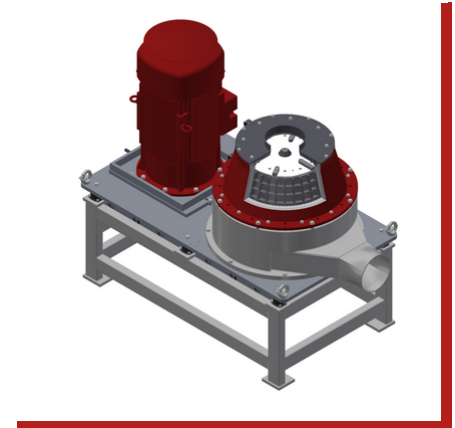

What makes this mill unique

- automatic rotor direction change for longer service life
- low abrasion through hard metal equipment
- easy replacement of wear parts
- fast cleaning and low maintenance
- milling and homogenization up to Mohs hardness 7
- abrasive and sticky products, special processing
- cryogenic grinding, mill-drying, inert gas operation

All NOLL systems and designs stand out because they

- use far less energy than other systems
- reduce operating costs considerably
- suit almost any application and are remarkably versatile
